

Follow-Up in FGDM

Monitoring

- The family and the referral source monitor the plan
- The Family Plan should address who will assist in monitoring
- Individuals should be identified to monitor the plan and the participants
- Family should be educated on monitoring early in coordination

FGDM Follow-Up

- Many counties follow-up with surveys at 6 and 12 months after the conference

Follow-Up Conferences

- Formal meeting to ensure the longevity of the plan
- Follow-Up Conferences are strongly encouraged by the PA FGDM Leadership Team
- Often scheduled at the conference
- Anybody present can request a Follow-Up Conference
- Who will be contacted should be covered at the conference
- Family identifies what resources participate in the Follow-Up
- Follow-Up Conferences are frequently shorter than original conference
- Discuss what is going well with the plan and what parts need modified
