

Foster Parent Feelings about Visitation

As you view the segments “Foster Parents Speak” and “Conflicted Feelings” on the “Visits” video, answer the following questions:

What appears to be the relationship between the foster parents and the birth parents?

What are the circumstances that create challenges for the foster parents in preparing children for visits or acclimating the children following visits?

Does there appear to be defined roles for the foster parents in the visitation process? If so, what are they?

How could the caseworker assist the foster parents to have more positive experiences in the visitation process?
