Dear [Name of Youth/Family]:

Thank you so much for your participation in the panel presentation for *Childhood Mental Health Issues: Application to the Casework Process* on [date]. Your expertise was a very valuable part of creating for the participants an understanding of service coordination between Children and Youth, families and other community service organizations. This was an essential step to help them understand how to form an effective partnership and coordinate services with community-based agencies to meet concrete, supportive and therapeutic needs of children, parent/caretakers and foster/adoptive parents. Your presentation about your experiences and services received was critical to the participants' understanding of how and when to access appropriate services for their families.

Thank you for doing an outstanding job of partnering with us as we train new child welfare professionals. The participants greatly appreciated the panel forum, having a chance to ask questions about your experiences with mental health services as they relate to child welfare practice.

Thank you again for your continued support of the Pennsylvania Child Welfare Training Program.

Sincerely,

Training Delivery Specialist
