

Case Study Questionnaire

1. What behaviors did Linda exhibit that indicated substance abuse?
2. What issues/red flags do you see in Linda's life in relation to abusing substances?
3. What delinquent behaviors do you see in Linda's life?
4. What early sexual activity behaviors do you see in Linda's life?
5. What community resources would you refer this adolescent and her family to and why?
6. How would you engage Linda and her family in a conversation about substance abuse?
7. What changes would you hope to see in Linda and her family for you to deem this a successful case?
8. What kinds of on-going support would be beneficial for Linda as treatment ends?
9. What are your own feelings about Linda and her mother? How would you deal with those feelings as you work with them?
10. What other observations or concerns would you want to discuss with this case?
