

Physical and Safety Issues

- What physical evidence would you advise your caseworkers to look for in the home of someone using/abusing AOD?
- How would you insure they know the risks are different based on the age of the child?
- What questions would you ask them to obtain an assessment of the risk in the home?
- Identify the safety issues for children in the following age brackets who live in homes where someone is using/abusing the substances within your category:

0-5 years of age

6-12 years of age

13-18 years of age
