\*For the second round of reviews, the Children's Bureau uses six data indicators to determine substantial conformity with two outcomes. The data indicators include two individual data indicators for Safety Outcome 1 and four data indicators in the form of composites for Permanency Outcome 1. Each of the four composites incorporates one or more components. Components are the general factors that contribute to the composite score. Each component comprises two or more measures. For more information, please see Chapter 5: Determination of Substantial Conformity, Subsection A.2.1.
