

Learning Objective

Learning Objective:

Participants will be able to:

- Recognize the importance of engaging families in the casework process by using the Interactional Helping skills and the strengths based, solution focused approach to Child Welfare practice.

Competencies:

- 102-1** The Child Welfare Professional is able to apply social work values and principles in practice, including respecting the client's dignity, individuality and right to self-determination.
- 102-2** The Child Welfare Professional knows the proper sequence of steps in the case planning process.
- 102-8** The Child Welfare Professional understands the potential effects of cultural and ethnic difference on the development of the casework relationship and knows strategies to establish relationships with clients from cultural backgrounds which are different from one's own.
