

The Pennsylvania Child Welfare Training Program invites

all Consultants and Trainers to:

709: Considering the Diversity Factor in Training: A Trainer's Handbook

The Pennsylvania Child Welfare Training Program is strongly committed to the goal of building cultural competence in the Child Welfare System. As the main provider of training to Child Welfare Professionals throughout the state, we recognize the unique opportunity we have to make a contribution towards that goal. The Diversity Task Force, which is part of the Training Program, undertook this special project in order to provide consultants, trainers, curriculum writers and training managers with resources and tools that are believed to be critical in curriculum development and training presentation and facilitation. The purpose of the handbook is to assist participants in more easily and effectively incorporating issues of human diversity into curriculum development and training presentation.
